

Installation Steps:

- 1) Go to chrome Go to Chrome Web Store Extensions Section and search for MetaMask and Click the Add to Chrome button.

- 2) Once installation is done this page will be displayed. Click on the *Create a Wallet* button.

3) Click I Agree button and proceed.

Help us improve MetaMask

MetaMask would like to gather usage data to better understand how our users interact with MetaMask. This data will be used to provide the service, which includes improving the service based on your use.

MetaMask will...

- ✓ Always allow you to opt-out via Settings
- ✓ Send anonymized click and pageview events
- ✗ **Never** collect information we don't need to provide the service (such as keys, addresses, transaction hashes, or balances)
- ✗ **Never** collect your full IP address*
- ✗ **Never** sell data. Ever!

This data is aggregated and is therefore anonymous for the purposes of General Data Protection Regulation (EU) 2016/679.

* When you use Infura as your default RPC provider in MetaMask, Infura will collect your IP address and your Ethereum wallet address when you send a transaction. We don't store this information in a way that allows our systems to associate those two pieces of data. For more information on how MetaMask and Infura interact from a data collection perspective, see our update [here](#). For more information on our privacy practices in general, see our [Privacy Policy here](#).
